About Andhra Chamber of Commerce

The Andhra Chamber of Commerce is one of India's oldest and most respected industry associations, established in 1928 to promote trade, commerce, industry, and entrepreneurship. Headquartered in Chennai, the Chamber serves as a bridge between businesses, government, and other stakeholders by advocating policy reforms, facilitating trade and investment, supporting MSMEs and startups, and organizing seminars, business networking events, capacity-building programs, and international trade initiatives. Over nearly a century, it has played a significant role in fostering economic development across South India while representing the interests of its diverse business community.

The Chamber has today over 1350 Members and over 28 Affiliated Chambers of Commerce and Industry and Trade Associations.

Though the Membership is largely drawn from the States of Andhra Pradesh, Telangana and Tamil Nadu the fact that the Chamber draws its Members from nearby Karnataka, Kerala and Pondicherry and far away Chandigarh, Delhi, Haryana, Gujarat, Maharashtra, Rajasthan, Uttar Pradesh and West Bengal is a striking proof of the vision that has inspired those in charge of the Chamber all these years. Since the motto of the Chamber is “Progress through Commerce and Industry” the Chamber has always sought the progress of the industrial and business community.

Regular initiatives from the Chamber :

- Represents industry, trade and services
- Works closely with Central & State Governments
- Promotes industrial growth, MSMEs, exports, investments and policy advocacy
- Organises national conferences, business forums, policy dialogues and international collaborations
- Strong network across industry, government, academia and professional institutions

About the Conference

September 18, 2026, Friday
10 00 am - 05 30 pm

Why this Summit?

Global geopolitical developments and growing uncertainty in energy markets are compelling industries to rethink how energy is produced, stored and consumed.

The Future Energy Summit 2026 will bring together policymakers, regulators, industry leaders, technology innovators, financial institutions and businesses to discuss practical pathways towards energy security, sustainable growth and business resilience.

The summit will showcase emerging technologies, investment opportunities, government initiatives, standards, certification frameworks and successful implementation models that can accelerate India's transition towards diversified and reliable energy systems

Conference Objectives

1

- Create awareness on alternative energy solutions for industries and commercial establishments.

2

- Promote business continuity through diversified energy strategies.

3

- Showcase emerging technologies transforming industrial energy consumption.

4

- Highlight Government of India initiatives, incentives and financing opportunities.

5

- Discuss standards, regulations and certification requirements.

6

- Promote investments in renewable and clean energy.

7

- Facilitate networking between industry, technology providers, investors and policymakers.

8

- Build collaborations for India's Energy Transition.
